

Parents invited to online school session

Fennimore, WI - January 31, 2008 -

Insight School of Wisconsin, part of the nation's largest national network of online high schools, will be hosting an information session in the Prairie du Chien area on Wednesday, Feb. 6 from 7-8:30 p.m. at the Prairie du Chien City Hall, Second Floor Meeting Room, 214 East Black Hawk Ave. A complete list of information session locations and schedule can be viewed at www.insightwi.net.

Staff, teachers, current students and their parents will be on hand to talk about curriculum options, demonstrate how online instruction works and answer questions.

Refreshments will be provided and participants can enter to win an OfficeMax gift card.

Insight School offers families a tuition-free alternative to "traditional" high school. At Insight School of Wisconsin—a full-time, diploma granting online public high school—students are able to complete their studies at their own speed in their own setting, using a school-supplied laptop with wireless capability, a printer, and reimbursement for the Internet.

Insight School of Wisconsin might be the right choice for students who have been homeschooled by choice, are advanced learners or need to catch up after falling behind on credits; who cannot attend school due to physical condition or illness; who have struggled socially in a traditional school; or need flexibility to pursue careers in athletics or the arts.

Insight School of Wisconsin is an accredited, tuition-free high school that offers the largest course catalog of online high school classes in Wisconsin, with over 120 courses, grouped to address students with different backgrounds and aspirations.

Through Insight's affiliate school, the University of Phoenix—the largest accredited private university in North America—students can now enroll in “dual credit” courses. Juniors or seniors will be able to earn up to 12 college credits online while simultaneously earning high school credit by participating in the Pathways Program at Axia College, University of Phoenix.

High school-aged Wisconsin students and their families that are interested in attending an online school in the fall must submit an open enrollment form during the open enrollment period between Feb. 4 and 22.

Insight School of Wisconsin is the only fully supported diploma-granting online public high school in Wisconsin with accreditation. Insight School of Wisconsin is tuition-free for Wisconsin residents and is made possible through a partnership between Grantsburg School District and Insight Schools.
