

# Racine Teen Named Insight School's Student of the Month

***Grantsburg, WI - October 28, 2008 -***

Racine teen Shawnee Hansen was recently named Insight School's Student of the Month for September in recognition of her outstanding academic achievement.

"This is my first year of going to school online. I really like the one-on-one help I Receive from my teachers," said Hansen, noting that extra support is available in the evenings as well as during the day. And she enjoys other benefits of online schooling too.

'For me, getting up early is hard, my brain functions better later in the day," she said. "And you can work ahead in your classes because you know what the assignments are ahead of time."

In fact, she credits working ahead in most of her classes as one of the key reasons she's been successful this year.

When Hansen's not working or taking classes online, she enjoys playing baseball and basketball. And she's recently joined two online school clubs—the Spanish and Writing Clubs. "I love to write. And I want to take four years of Spanish because someday I'd like to travel to Mexico or Spain."

Hansen is one of more than 3,000 Wisconsin students who attend high school online.

Insight School of Wisconsin is a full-time, diploma-granting online public high school made possible through a partnership between Grantsburg School District and Insight Schools Inc.
